giant, repair, sympathetic uveitis after, 122

proliferative vitreoretinopathy and, 97

type and location, relation to time of occurrence after cataract surgery, 181

Retinitis

cytomegalovirus, liposome-encapsulated ganciclovir-trifluridine in, 232

necrotizing, *Aspergillus fumigatus*, in immunocompromised host, 226

sunlight-induced, 28

Retinitis pigmentosa

anti-S-antigen antibodies in, 237

letter contrast sensitivity in, Regan chart assessment, 287

Retinoblastoma, neuron-specific enolase in aqueous humor and, 148

Retinopathy

leukemic, 110

sunlight-induced. *See* Solar retinopathy

Retinotomy, removal of subretinal cysticercus via pars plana vitrectomy, 276

S

- S-antigen, in retinitis pigmentosa, 237
- Scar, chorioretinal, with transconjunctival/transscleral diathermy, 127
- S-cells, 69
- Scleral buckle, for retinal detachment
 - in ARN, visual results and complications, 170
 - late bacterial endophthalmitis following, 263
- Serpiginous choroiditis, clinicopathologic findings in, 292
- Silicone oil implantation, for posttraumatic retinal detachment complicated by proliferative vitreoretinopathy, 8
- Solar retinopathy, photobiologic and geophysical analysis, 28
- Subretinal fluid, absorption, in disseminated intravascular coagulation associated with abruptio placentae, 105
- Sulfur hexafluoride, intravitreal injection, integrity of blood-ocular barrier and (rabbit), 199
- Sympathetic ophthalmia, after repair of giant retinal tear, 122
- Sympathomimetic agents, intravenous, acute macular neuroretinopathy and, 281
- Syphilis, ocular, neurosyphilis and, in HIV-infected patient, 175

T

- Thrombosis, retinal vein, tissue plasminogen activator for (rabbit), 1
- Tissue plasminogen activator (t-PA), for retinal vein occlusion (rabbit), 1
- Trauma, ocular, penetrating, retinal detachment and proliferative vitreoretinopathy and, silicone oil implantation in, 8
- Trifluridine. *See* Ganciclovir-trifluridine
- Tumor marker, neuron-specific enolase and retinoblastoma, 148
- Tunable dye laser
 - yellow wavelength, photocoagulation, for retinal macroaneurysms, 187
 - age-related macular degeneration, 245

U

- Ultraviolet B radiation. *See* Solar retinopathy
- Uveitis, sympathetic, after repair of giant retinal tear, 122

V

- Vision, blurred, in disseminated intravascular coagulation associated with abruptio placentae, 105
- Visual acuity
 - after repair of pseudophakic retinal detachment involving macula, 15
 - measurements, reliability, 163
 - in retinitis pigmentosa, Regan Contrast Sensitivity Letter Chart assessment in, 287
- Vitreectomy
 - bimanual technique, in management of anterior vitreous traction in proliferative vitreoretinopathy, 258
 - pars plana
 - for giant retinal tear, sympathetic uveitis after, 122
 - for late postoperative bacterial endophthalmitis, 263
 - for removal of subretinal cysticercus, 276
 - scleral buckle and, for retinal detachment in ARN, visual results and complications, 170
- Vitreoretinopathy
 - dominant exudative, optic disc neovascularization in, 270
 - proliferative
 - anterior vitreous traction in, management, 258
 - in posttraumatic retinal detachment, silicone oil implantation in, 8
 - predisposing clinical factors, 97
 - in retinal detachment associated with ARN, visual results after reattachment and, 170
 - retinal pigment epithelial cells in, 203
- Vitreous body, retinal epithelial cell penetration of and migration into (rabbit), 203
- Vitreous detachment
 - posterior, in gyrate atrophy of retina and choroid, 139
 - pseudophakic retinal detachment and, 181
- Vitreous hemorrhage, proliferative vitreoretinopathy and, 97
- Vitreous substitute, silicone oil, 8
- Vitreous traction, anterior, in proliferative vitreoretinopathy, management, 258
